

Crimp version industrial circular connectors

# **ROHS**

- Black coating
- Nickel plating

SLX series are derived from the standard SL series, and have the particularity to use machined contacts with crimp barrels. The one part Neoprene insert provides a use in a temperature range from -55°C to 125°C, the possibility to change the contacts for reparation, and an higher test voltage capability. 12 different contacts arrangements are available which include different contact gauges (20, 16, 12) in the four different shell sizes 10, 20, 30 & 40. SLX series panel drilling

# is the same as for SL series and SLX series connectors are intermatable with SL series connectors (SLX Plug with SL Receptacle and vice versa).

# Crimp removable contacts 125°C

#### Instrumentation

Robotics

APPLI

- Power supplies
- Transportation
- Entertainment (brand-lights)

#### Mechanical characteristics

- Crimp removable gold plated on nickel underplate machined contacts
- 12 insert arrangements which accept contact gauges AWG 20, 16, 12. in the four different shell sizes 10, 20, 30 & 40
- Temperature range -55°C to 125°C
- Clear cadmium plated, nickel plated and black coated aluminium molded shells
- Mating by screwing system
- Strain-relief integrated to the backshell
- Neoprene inserts
- Reinforced mating screw
- ROHS versions:
  - Black coating (Non conductive)
  - Nickel plating (conductive)
- Performances according to NFF61030

#### **Electrical characteristics**

Contacts caracteristics

Contact gauge AWG	20	16	12
Contact diameter (mm)	1	1.5	3
Nominal current (A)	7.5	13	25
Contact resistance (Ohm)	≤ 0.005	≤ 0.002	≤ 0.002
Contact retention in the insert (N)	≥ 30	≥ 40	≥ 45

Contact arrangements electrical caracteristics

Test voltage at sea level (Vrms)	1500	2300	2800
Contact arrangements	14V-17P-22B	27E-337P	319L-419AR
	23C-212AF-38J	439R	
	315K		

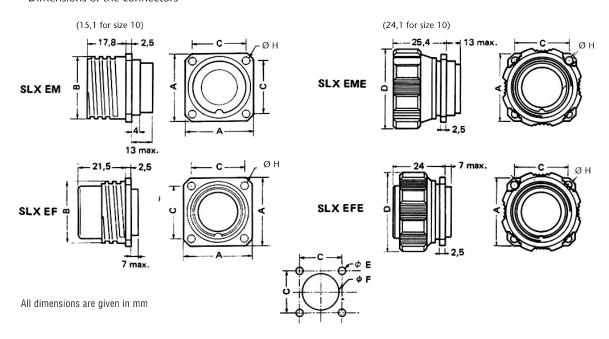

#### Contacts and wires

	Contact gauge	Internal .	barrel Depth	Pin diameter	AWG gauge	Sectio mini	n mm²   maxi	Diameter over conductor (mm)		Maxi diameter
	AWG	diameter in mm	in mm	(mm)				mini	maxi	over sleeving (mm)
I	12	2.5	7.5	3	14-12	1.80***	3.30	1.7	2.45	4.2
	16	1.95	6.4	1.6	20 -> 14	0.60*	1.91	1	1.9	2.8
	20	1.35	4	1	24 -> 18	0.22**	0.93	0.6	1.3	2.4

- $^{\star}$  The use of a 800629 reducing sleeve is necessary for cable section less than 0.60 mm $^{2}$
- \*\* The use of a 800612 reducing sleeve is necessary for cable section less than 0.22 mm²
- \*\*\* The use of a  $\mid$  900092 reducing sleeve is necessary for cable section less than 1.80 mm² for # 16 to 20 900093 reducing sleeve is necessary for cable section less than 1.80 mm² for # 20 to 24

#### • Dimensions of the connectors

For more details about dimensional characteristics, please refer to standard SL data-sheet. Some dimensions mentioned bellow regarding insulators are specific to SLX series.

Receptacle size	A (mm)	Diam. B (mm)	C (mm)	Diam. D (mm)	Diam. E (mm)	Diam. F (mm)	Diam. H (mm)
10	25	21	19	28	3.2	16.5	3.2
20	31	28.1	24	37	3.5	25.5	3.5
30	46	42.2	34	52	3.5	35.5	3.5
40	56	52.2	41	65	3.5	47	3.5

# **Contacts insert arrangements**

### Straight or right-angle backshell

	Backshell reference							
Connector size	black* (non conductive)	straight nickel* (conductive)	green cadmium (conductive)	black* (non conductive)	right-angle nickel* (conductive)	green cadmuim (conductive)		
	(mon conductivo)	(oonaaotivo)	(conductivo)	(IIOII GOIIGGGITG)	(conductive)	(conductivo)		
10	47377N	47377NI	21458N	47381N	47381NI	21462N		
20	47378N	47378NI	21459N	47382N	47382NI	21463N		
30	47379N	47379NI	21460N	47383N	47383NI	21464N		
40	47380N	47380NI	21461N	47384N	47384NI	21465N		

- \* Black and Nickel Backshells are ROHS compliant.
- Straight or right-angle backshells are delivered with different clamping pads.
- Green backshells (conductive finish) are delivered with metallised clamping pads.

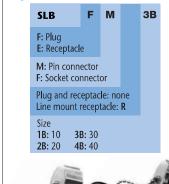

### Contacts as spare parts\*

Contact gauge AWG	12	16	20
Part-number for one pin	21713	800660	800650
Part-number for one socket	21728	800664	800654

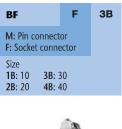

<sup>\*</sup> For arrangement 419 AR and 23C: Part-number for one pin: 35941 Part-number for one socket: 35970

### **Accessories**

#### **Sealing sleeve:** Adaptator for flexible conduit and PG:

Connector	Size	Ref.	
Straight	10	43458	Ш
Right-angle	10	43473	
Straight	ر 20	43456	
or	₹ 30	44666	
Right-angle	L 40	43457	
			ΙГ

for plug or line mount receptacle

	Connector size	PG thread
SL RF 209N	20	9
SL RF 211N	20	11
SL RF 313N	30	13
SL RF 316N	30	16
SL RF 416N	40	16
SL RF 421N	40	21
SL RF 429N	40	29

Caps and sealing sleeves are ROHS.

# **Cabling tools**

Crimping tools

• Crimping pliers: 809857 (Mil. P/N: M22520/1-01)

• Positioner: 21770

For arrangement 419 AR and 23C: TP943

• Controlling jauge: 809907 (Mil. P/N: M22520/3-1) (Selector number: 4)

Contacts insertion and removal

Contacts	Insertion tool P/N	Removal tool P/N
# 12: Pin	141900	21746
# 12: Socket	141900	21745
# 16: Pin	48680	809731
# 16: Socket	48680	809732
# 20: Pin	39048	809729
# 20: Socket	39048	809730

# **Cabling process**

Crimping process

Place the positioner in the pliers.

Choose the selector number on the positioner according to the contact size to crimp.

Strip the wire end (7.5mm for size 12 contact / 6mm for size 16 contact / 4mm for size 20 contact).

Insert the wire in the crimp barrel of the contact and check through the inspection hole of the contact that wire is wellplaced.

Place the contact with the wire into the pliers until the stop. Completely close the tool and after, let it open itself.

Visually check if crimping is correct and by the inspection hole of the contact if the wire is well-placed in the crimp barrel.

Contact insertion

Insert the wired contact in the groove of the tool, taking care that the extremity of the tool touches the shoulder of the contact. Insert the contact in its cavity from wiring side and steadily push the tool along the axis of the cavity until the contact locks home.

Carefully withdraw the tool, applying a forward pressure on the wire.

Pull on the wire to check that the contact is correctly locked.

Contact removal

Insert the tool from the mating side and push it along the contact axis until contact unlocks.

Pull the contact out from the rear of the connector.

### Plug and Inline receptacle (backshell sets included)

ROHS Part Numbers: nickel plated or black coatedX

Non ROHS Part Numbers : clear cadmium plated

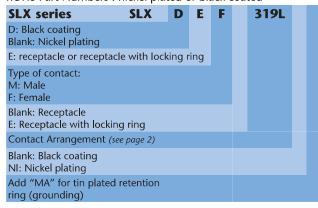

SLX series SLX F M D 319L

F : plug or inline receptacle

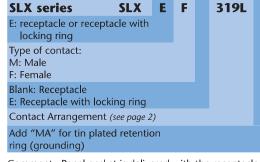

Type of contact:
M: Male
F: Female
D: plug + straight backshell
DR: inline receptacle + straight backshell
C: plug + right angle backshell
Contact Arrangement (see page 2)

## Panel mount receptacle and receptacle with locking ring

ROHS Part Numbers: nickel plated or black coated

Non ROHS Part Numbers : clear cadmium plated

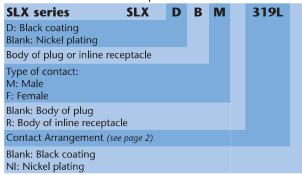

Comment: Panel gasket is delivered with the receptacle

Comment: Panel gasket is delivered with the receptacle

# **Body of plug and inline receptacle**

With those part numbers the straight and right angle backshells are not included. To define part numbers of backshells, please to consult page 2.

ROHS Part Numbers: nickel plated or black coated

Non ROHS Part Numbers : clear cadmium plated

SLX series	<b>2LX</b>	R	IVI	3 1 7 L
Body of plug or inline receptacle				
Type of contact: M: Male F: Female				
Blank: Plug R: inline receptacle
